glucosa® جلوكوزا (Powder)

Iconic Glucose Precursor

Glucosa® offers an effective, rapid and cost-effective solution for fighting energy deficits in cows. It stimulates the appetite by supporting blood glucose levels via reduced blood ketones. The rate of milking robot visits increases and calving/first oestrus intervals improve.

Ingredients

Propylene Glycol (Bio Based), Sorbitol, Dextrose, Vitamin B12, Propionate (as Sodium Propionate), Niacin, Choline, Lysine & Methionine.

How Does **Glucosa** Work?

- **Glucosa®** is the most energy dense feed ingredient after fat.
- **Glucosa®** increases the key VFA in the rumen.
- Propionate and lactate are absorbed and transported to the liver.
- Liver function is improved due to increased fatty acid oxidation and reduced fat accumulation.
- Liver produces more glucose, supplying the energy needed for milk production, immune challenges and metabolic disorders.

Benefits of **Glucosa®**

- **Improves Energy Status and Glucose Production.**
- **Improves Liver Function.**
- **Improves Overall Health.**
- **Improves Feed Efficiency by 11%.**

Dosage Instructions

1 gm per 3 Kg Body Weight.
**As preventive treatment for 2 to 3 weeks before calving and for a minimum of 25 days after calving.*
**As a curative treatment in the event of diagnosed ketosis: 5-day treatment during the 6-week period after calving.*

Odour: *Odourless*
Solubility: *Insoluble*
Packaging: *25 Kg Bag*
Safety measures: *Avoid contact with skin and eyes. Avoid dust inhalation. Always check the information on the material safety data sheet.*
Storage: *Cool and dry*
Shelf life: *At least 24 months from date of production*
